

KINNIKINNICK ELEMENTARY

A House of Learning

Date April 11th, 2020

Dear Kinnikinnick Families,
Happy Easter from all of us at Kinnikinnick!!
Thank you everyone for your support and understanding as we navigate this new reality. We hope you are all healthy and staying safe.

This week you will be contacted by your child's classroom teacher as we begin to roll out an educational framework. If you have not heard from someone from Kinnikinnick please email your child's teacher(email available on our website) or myself. Our staff will continue to be available for support if there are any questions or additional supports needed.

Every teacher has planned according to the needs of their class as well as the individual needs of all the students in their care. There is no blueprint for teaching in this new reality. Although this is not what we are used to, we are all making the best of it. As time goes on we will continue to engage students in their new learning environment and educational plans. We recognize that each family is unique with different needs and support from home will look different for all.

Currently, we are making plans for families to be able to come to the school and pick up their child's belongings, this will not be for student portfolio's or projects, just essential items. This is going to look different for each class. Please stay tuned for more info to come to you next week.

Additionally, plans are being made in the district to distribute technology to those students who will be requiring a device to support their learning. We ask for your patience as we work this out district-wide. Information will be provided as it becomes available.

I've also attached a document for any family needing support at this time from our outside community agencies.

Thank you all for your continued support to our teachers and staff.

Stay safe,

Bernadette Marie
